

We are opening Wesley Chapel for a Sunday morning service from 27 September at 10.30am.

We will be conforming to strict Covid risk assessment guidelines:

- everyone wearing masks throughout the service
- temperature checks
- hand sanitising
- social distancing seating
- no singing
- service between 30-45 minutes in length
- downstairs Lower Hall not open
- access and exit only through main doors

There will be only the one toilet upstairs available 'for emergencies' and no socialising within the building after the service.

We are striving to balance being able to worship together and also ensuring the safety of all who come within our building. If you feel at all unwell on the morning please stay at home, if you feel unsafe coming to church please stay at home and link into one of the available online services if you can.

Upon entry you will have your temperature taken and be asked to use hand gel and then shown to a seat. If you are part of a family or current 'bubble' you can sit together (no more than 6 people) otherwise, you will have to sit separately. All this will take time so please arrive earlier than usual; one of our accompanists will be playing the piano or the organ so there will be time to listen to some lovely music.

Of course, all this is subject to last minute change should Harrogate be subject to further movement restrictions. If this happens, we will send email messages to everyone and ask telephone visitors to ring those not on email contact. A lot of work and uncertainty but it will be so special if we can at least re-open our doors and share fellowship and worship. Amen. **Les Sudron.**
